The Portfolio Manager's team is assisted by an equity research team, whose sole objective is to research & identify stock ideas to be included in the portfolio for our clients.

The Portfolio Manager will follow a bottomup approach for identifying companies with emphasis on fundamentally sound, well researched companies having bright future prospects irrespective of market cap of the company.

List of Investment Approach/Strategies:-

1) Care PMS Growth Plus Value –

This was a sole strategy from inception till 18-Jun-2020 which was offered to clients. The strategy is now named as "Care PMS Growth Plus Value Strategy". All existing clients' portfolio are built with this investment approach and they are tagged under this strategy.

This strategy follows a concentrated approach of investing in 15-20 companies which are mix of growth, value, turn around, etc. across market capitalization. The focus is on companies which are trading at low or reasonable valuations.

Strategy Benchmark – BSE Smallcap Index

Investment Horizon – 5-7 Years

Strategy specific Risk –

Besides the detailed risk related to equity investment mentioned in point 6 below mentioned are the strategy specific risks:-

- Exposure to smallcap & midcap is higher which may have liquidity and transparency challenges
- Exposure to single sector or company may be higher on account of opportunity
- Individual portfolio will be constructed and hence there can be deviation between weighted average returns and individual portfolio returns

2) Care PMS Large & Midcap Strategy –

The strategy was launched on June 18, 2020 and will be focusing on investing in Top 250 companies based on market cap. Companies will be identified based on fundamental research and a portfolio of 18-20 companies will be constructed. Strategy will follow a model portfolio concept and each clients' portfolio will be aligned at regular frequency. The entry and exit points for each security will be pre-defined and adhered to.

Strategy Benchmark – SENSEX

Investment Horizon – 3-5 Years

Strategy specific Risk –

Besides the detailed risk related to equity investment mentioned in point 6 below mentioned are strategy specific risk:-

- Since these are larger companies and also present in the derivative segment the prices of these securities may be influenced by the movement in the derivatives markets as well.

Method Time weighted Rate of Return (TWRR) – Daily valuation method is used for rate of return calculation. Portfolio valuation is adjusted for day with addition/withdrawal of funds by clients. Total returns include realized and unrealized gain and income such as dividend, interest, etc. Calculations are after deduction of transaction charges and fees.

10. Nature of Expenses:

Expenses shall be charged to clients as permitted under the SEBI Regulations. Operating expenses excluding brokerage, over and above the portfolio management fees shall not exceed 0.50% per annum of the client's average daily assets under management.

Portfolio Management Fees:

Management Fees relate to the portfolio management services or advisory services offered to Clients. The fee may be a fixed charge or a percentage of the quantum of funds managed or a combination of any of these. These fees will be decided between the client and the portfolio manager at the time of the agreement.

- **Fixed fees:**

Fixed fees are fixed amount charged by the Portfolio Manager on the Funds on which portfolio management service as well as advisory services is provided.

- **Performance/ Profit based fees:**

This fee is a fixed percentage amount charged on the return or gain (actual and notional) of the funds managed. This fee is charged on the basis of High Water Mark Principle where 'High Water Mark' is the highest value the portfolio/ account has reached for discretionary and non-discretionary portfolio management services.

The below mentioned is indicative charges which are levied to client for availing services

Nature of Charge	Quantum
Fixed Fees	Upto 3% per annum
Performance Linked Fees	Upto 25% of Growth with High Water Mark
Exit Load (If withdrawn within 1 year)	Upto 3% or as permitted in regulation

- **Commission/Fees to distributors: -**

Portfolio Manager will be sharing fees with the introducer of clients as per terms agreed with distributors and within specified limits under regulation if any. Also, all necessary disclosures with respect to these expenses will be done with clients through various reports.

Please note that, there is no extra charges which are levied to clients for payment of commission to distributor. Client also can approach the Portfolio manager directly for availing its services.

- **Other Expenses**

In addition to portfolio management fees, there are other expenses which are incurred to carry out transactions such as brokerage, STT, custodian & fund accounting expenses, audit fees, etc. which are levied at actual. These expenses are within limit as prescribed in regulation.

Illustration for Performance fees:

Consider that frequency of charging of performance fees is annual. A client's initial contribution is Rs. 50,00,000 which then rises to Rs. 54,00,000 in its first year; a performance fee/ profit sharing would be payable on the Rs. 4,00,000 returns. In the next year the portfolio value drops to Rs. 48,00,000 hence no performance fee would be payable. If in the third year the Portfolio rises to Rs. 60,00,000 a performance fee or profit sharing would be payable only on the Rs 6,60,000 profit which is portfolio value in excess of the previously achieved high water mark of Rs. 54,00,000 rather than on the full return during that year from Rs. 50,00,000 to Rs. 60,00,000.

Illustration for levy of performance fees on High Water Mark Principle

Date as on	Portfolio Value (in Rs.)	Profit (in Rs.)	Fees (eg. 15%)	High Water Mark (Portfolio Value net of fees)
April 1, 2021	50,00,000	-	-	50,00,000
March 31, 2022	54,00,000	4,00,000 (54,00,000-50,00,000)	60,000	54,00,000
March 31, 2023	48,00,000	-	-	54,00,000
March 31, 2024	60,00,000	6,00,000 (60,00,000-54,00,000)	90,000	60,00,000

All the fees levied are subject to statutory tax like GST which will be levied over and above the fees at applicable rate.

In case of interim contributions/ withdrawals by clients, performance fees would be charged as per mutual agreement between the parties at the time of entering into agreement.

11. Taxation:

Under the Portfolio Management Services, the onus of income tax payable on capital gains/business income, dividends, interest or any other taxable income arising out of the portfolio management services is on the Investor. The Portfolio Manager will provide adequate statements on a periodical basis, to enable the investor to meet their tax obligations under the Income Tax Act, 1961.

Broadly, an investor can expect below mentioned income from their investment

- Dividend Income
- Interest Income
- Capital Gains on transfer
- Non-monetary Corporate benefits such as bonus, rights, etc.

Please refer to below table which indicates present income tax rates (as amended by Finance bill 2020) applicable for different income mentioned above.

Nature of Income	Sub-Income Head	Clubbed with Other income	Tax Rates
Dividend Income	Dividend	Yes	Slab rates
Interest Income	Interest	Yes	Slab rates
Capital Gains	Long Term (Equity where STT paid)	No	10%
	Short Term (Equity where STT paid)	No	15%

	Long Term (Debt/Liquid MF)	No	20% with indexation
	Short Term (Debt/Liquid MF)	Yes	Slab rates

In addition to this, there can be exemption based on income slabs and residential status, tax treaties, etc. which changes from time to time. We request clients to consult their tax advisors for arriving at tax liability post clubbing their income other than one accrued through this investment.

12. Accounting Policy: The following accounting policy will be applied for the portfolio investments of the Client:

Basis of Accounting

For discretionary and non-discretionary client's books and records would be separately maintained in the name of the client to account for the assets and any additions, income, receipts and disbursements in connection therewith, as provided by the SEBI (Portfolio Management) Regulations, 2020, as amended from time to time. Accounting under the respective portfolios will be done in accordance with Generally Accepted Accounting Principles. Any tax deducted on income such as dividend or capital gain will be treated as part withdrawal of capital

For Advisory clients' memorandum books and records would be maintained based on trade details shared by them or on recommended price on notional basis.

Client Account Maintenance in case of NRI Client

In case of investments by the Client in listed securities and in the event that the Client is a Non-Resident Indian, as defined by SEBI from time to time the Portfolio Manager shall keep the funds of the Client in a separate designated account to be maintained by it in a scheduled commercial bank and shall also maintain a separate Portfolio record in the name of the Client in its books for accounting the assets and income of the Client.

The Portfolio Manager shall also maintain a separate depository account of each Discretionary & non-discretionary Client.

13. Portfolio valuation, Securities transaction and Income/Expenses:

Investments in Equities, Mutual Funds and Debt instruments will be valued at the closing market prices of the exchange (BSE or NSE as the case may be) or the Repurchase Net Asset Value (NAV) declared for the relevant scheme on the date of the report or any cut-off date or the market value of the debt instrument at the cut-off date.

Alternatively, the last available prices on the exchange or the most recent NAV will be considered for valuation.

Realized gains/losses will be calculated by applying the First in/First out principle. For example, the earliest purchased quantity will be reckoned for the current/most recent sale at the respective prices at both points in time. Unrealized gains/losses are the differences between the current market values/ NAVs and the cost of the securities.

The cost of investments acquired or purchased will include brokerage, stamp charges and any charge (except Securities Transaction Tax) customarily included in the broker's contract note. In respect of privately placed debt instruments any front-end discount offered will be reduced from the cost of the investment.

Dividends on shares and units in mutual funds, interest, stock lending fees earned etc. shall be accounted when the right to receive such dividend income is established. The interest on debt instruments shall be accounted on accrual basis.

Bonus shares to will be recognized only when the original shares on which the bonus entitlement accrues are traded on the stock exchange on an ex-bonus basis. Similarly, rights entitlements will be recognized only when

the original shares on which the right entitlement accrues are traded on the stock exchange on an ex-rights basis.

The Client may contact the customer services official of the Portfolio Manager for the purpose of clarifying or elaborating on any of the above policy issues.

14. Prevention of Money Laundering:

The Portfolio Manager is committed to adhere to the requirements specified under the Prevention of Money Laundering Act 2002 and the requirements laid down by the Securities and Exchange Board of India (SEBI), in this respect. The Clients including guardians (in case of minors) shall ensure that the investments made by them are through legitimate sources only and do not involve or are not designated for this purpose of money laundering or any contravention or evasion of the requirements specified under any rules, laws and regulations specified by the Government of India or any other statutory body / entity.

The Portfolio Manager reserves the right to seek appropriate information / documents from the Clients with a purpose to comply with *inter alia* its regulatory obligations. For the purpose, the Portfolio Manager could record the telephonic calls of the Client, retain documents and information etc. including details for establishing the identity of the investor, proof or residence, source of funds etc. The Portfolio Manager may also undertake field visits; verify information through third party databases etc. In case a Client refuses / fails / delays in providing the information sought by the Portfolio Manager, the Portfolio Manager retains the right to freeze the accounts of the Client, reject any transaction request, effect mandatory repayment / return assets etc. The decision of the Portfolio Manager in this regard, shall be final.

15. Arbitration process:

All disputes, differences, claims and questions whatsoever arising between the Client and the Portfolio Manager and/or their respective representatives shall be settled in accordance with and subject to the provisions of the Arbitration and Conciliation Act, 1996 or any statutory requirement, modification or re-enactment thereof for the time being in force. Such Arbitration proceedings shall be held at Mumbai only or such other place as the Portfolio Manager thinks fit.

16. Details of Facilities for Backup and disaster recovery of the data, the periodicity and the process followed for the same:

Care PMS implements an adequate system security plan in order to ensure the safety of the data of the Company. The plan of the company is explained below:

Facilities for back Up & recovery

Data Back-up:

All the computers of the Company are well upgraded with respect to the current technology and connected via LAN to the common server which will be responsible for security, maintenance and systematic functioning of the remaining PCs connected. Data is automatically backed-up by using a routine schedule time for the back up every subsequent Monday and Thursday.

Further, the Company periodically takes back up all the data of the common server and stores on an external Source (Hard disks disk which is specially used for backup). The Back-up is password protected and encrypted for security of the data.

Further, apart from common data drive, every employee is required to take the back-up of the data of their individual computers so as to ensure that the data saved on the local drive has also been properly backed-up. The back-up hard drives are stored at closer location which is safe and protected.

Email Systems:

The email system used is maintained by Google (Cloud Technology) and hence all the data stored on Google Network of data centers. Such data centers are extremely safe and provide high levels of security. Over and above that; the back-up of data file of email system (Outlook) is also taken as a part of above back-up process.

Anti-virus programs:

Licensed anti-virus and spam ware software has been installed on all the computers and appropriate firewall restriction will be maintained so as to prevent any attacks while using internet.

Annual maintenance contract: Further, the Company appoints a service vendor with annual maintenance contract for maintenance of the computers, data and network which will prevent the system from any possible failure and thus ensure the smooth functioning for the company.

Periodicity: Monthly

Recovery Process:

In case of break-down of computers, the system restoration will be handled by the vendor (the AMC contractor) which should not take more than 2-3 days. Further, as the data would be available in the external hard drives stored at the other location can be immediately loaded once the system and the applications (softwares) are in place.

Thus, overall, we expect to restore the system within 3-4 days to ensure minimum disruption.

17. Investors Services:**Maintenance of records:**

All records pertaining to the client will be maintained in an individual client file. This file will be a client record and include the Know Your Customer form, Client Portfolio Details, Portfolio Management Agreement, other relevant legal documents and all client communication details like reports furnished, queries responded, etc.

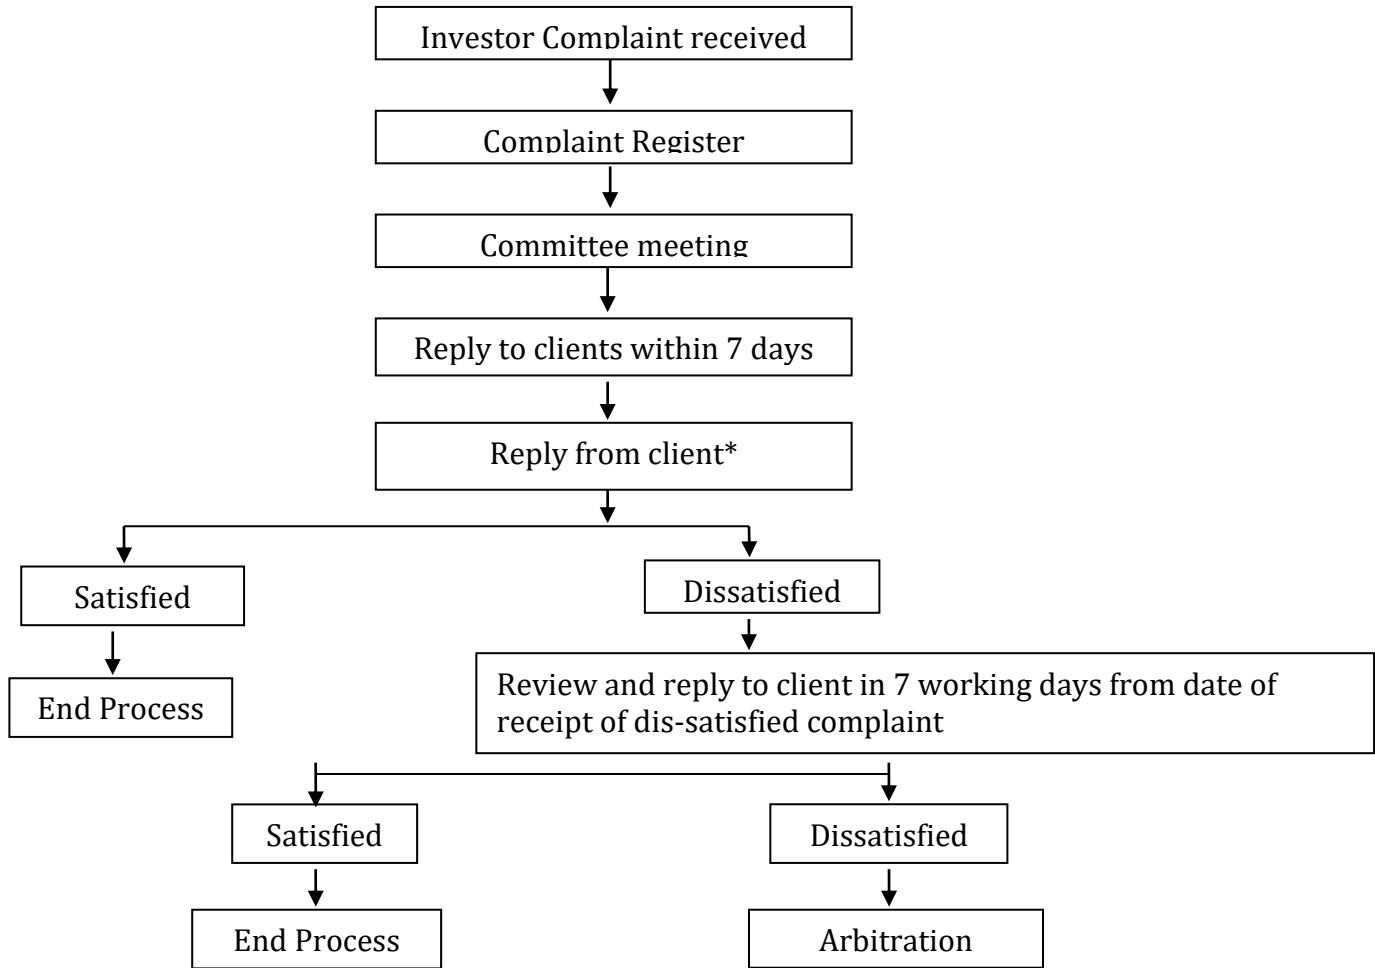

Investor Queries:

A separate Investor Query register is maintained by the Portfolio Manager where the investor can communicate directly with the Investor Relation officer regarding any queries about his portfolio/account. The Investor Relation Officer shall respond to all such queries within 30 working days. The record of such queries will be maintained in the client file for future references.

Complaint Register:

The Company maintains a Complaint register where the clients can file a complaint regarding service deficiencies or causes for grievance. The Portfolio Manager shall endeavor to address these queries within a reasonable period of time taking a minimum of up to 7 working days from the receipt of the complaint. If the Client remains dissatisfied with the remedies offered or the stand taken by the Portfolio Manager, the Client and the Portfolio Manager shall abide by the following mechanisms:

Complaint Process Flow Chart:

*If a reply from the client is not received within 30 days of intimation of complaint solution it will be assumed that the client is satisfied with the company's solution.

Note: Investors can lodge their grievances / complaints (if any) on score website (www.scores.gov.in). This includes only complaints in the nature of violation or non-compliance of commitment of service to the client and does not include routine queries (which is responded within 2 working days) by client service team.
